

PRIME

BRIDGE SAWS

Designed and made in Italy

CONTROL BOARD

The control board includes:

- Switch with release coil.
- Overheat protection with manual reset in the event of the disk jamming.
- Red light for net connection.
- Green light for machine on function.
- Laser instrument for the maximum cutting precision.

KIT WHEELS

The wheels can be fixed to the legs by means of eyebolts.

The machine can be easily moved if lightly lifted up by the handles.

STORAGE

Build to reduce at the maximum the encumbrance during the carriage and above all the storage space.

APPLICATION

Built to cut bricks, natural-stones, concrete blocks, granite and marble slabs.

The carriage engine group slides with 8 ball-bearings on interchangeable stainless steel track. So doing the sliding is very fast and precise.

A graduated scale measures the adjustment of the cutting depth by means the locking of the tilting of the engine group.

The **CUTTING PROGRESS SYSTEM** with **HANDWHEEL** adjusts the movement of the cutting head forward or behind.

Position 45° angle cuts.

SIDE BAR SUPPORT
Made to have the top precision during the execution of straight and angled cuts on slabs of large size. Adjustable angle-shot cut.
Optional for the models: 85, 100, 120, 150 and 200
